İstanbul/Türkiye

Dear Mr. Foltýn,

I am writing to express my strong interest in a traineeship at the Faculty of Applied Informatics, under the supervision of doc. Ing. Radek Matušů, Ph.D. driven by your institutions reputation for integrating theoretical knowledge with industrial application, and by the positive experience of enrolling previously as an exchange student in your institution. I believe I have the technical intuition and theoretical knowledge to be of benefit to your institution and grow as an engineer during this traineeship program.

Sincerely,
Eralp Çelebi
